

**Title for Abstract Submitted to FINUSTAR3 Conference on FRontiers in  
NUclear Structure, Astrophysics and Reactions \***

First Author<sup>1</sup>, Second Author<sup>1,2</sup>, Presenting Author<sup>3</sup>, Fourth Author<sup>1,2,3</sup>, Fifth Author<sup>1</sup>, Final Author<sup>2</sup>

<sup>1</sup> Institute of Nuclear Physics, NCSR “Demokritos”, 153.10 Aghia Paraskevi, Athens, Greece.

<sup>2</sup> Department of Physics, University of Jyväskylä, P.O.Box 35, 40014 Jyväskylä, Finland.

<sup>3</sup> Physics Department, Windmill University, Rhodes, Europe.

Abstracts should be written in English. Limit abstracts to one A4 sheet of paper in 11-point font, single-spaced. The title of the abstract should be typed in bold, capital and lower-case letters as illustrated in this template. A blank line should be placed between the title and list of authors. All authors should be listed on the next line(s) followed by their institution(s) with complete mailing addresses. Use numbers to indicate the different affiliations of the authors. The name of the author who will present the contribution should be underlined. The title, author list, and author affiliation list should be centered on the page. The main text should be separated from the list of affiliations with yet another blank line.

Figures may be included in the abstract. They must be accompanied by a figure caption with 11-point font. Figures should be neatly prepared and must fit within the space limitations. Any footnotes should appear immediately following the body of the abstract. References [1] should follow the footnotes.

This is the L<sup>A</sup>T<sub>E</sub>X template for abstract preparation. All abstracts should be submitted electronically via the submission form on the conference website by June 18, 2010. Abstracts submitted in L<sup>A</sup>T<sub>E</sub>X should be accompanied by eps figures, if necessary, and a pdf version of the full abstract as it is intended to appear.
